

AUST VPN CONNECTIVITY PROCEDURE (WINDOWS 8, 10)

1. Click windows button and search for PowerShell

2. Right click on Windows PowerShell app and select run as administrator.

3. Copy and paste the following line in PowerShell and press enter

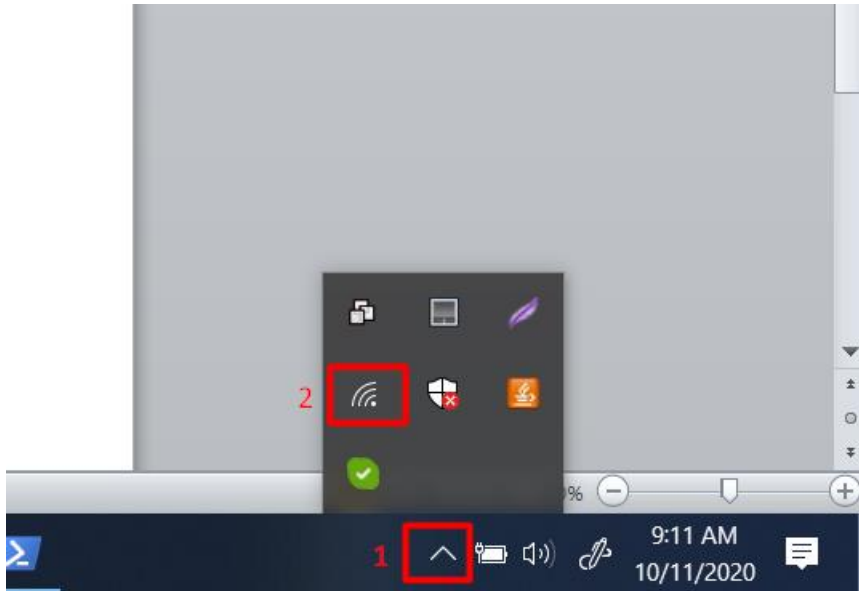

Add-VpnConnection -Name AUST-VPN -ServerAddress 103.23.42.72 -TunnelType Pptp -RememberCredential -Force

```
Administrator: Windows PowerShell
Windows PowerShell
Copyright (C) Microsoft Corporation. All rights reserved.

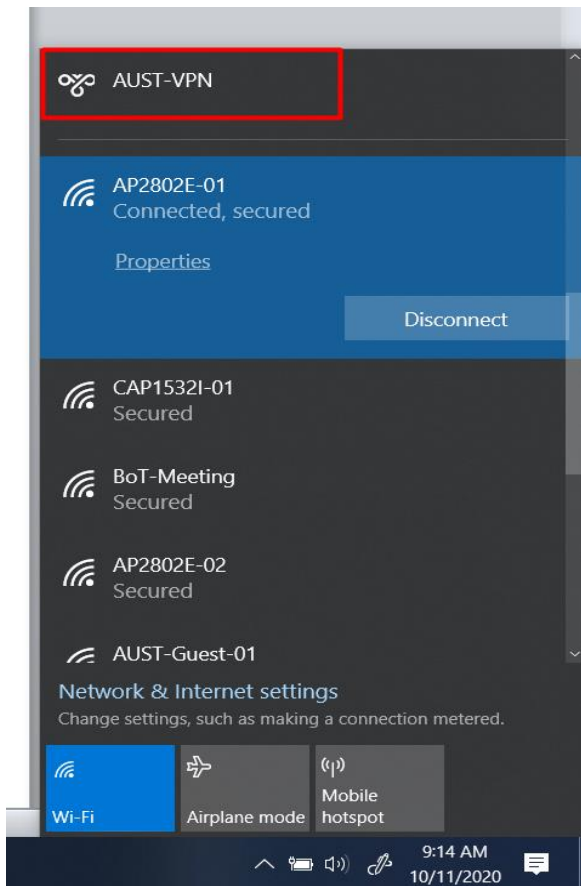

Try the new cross-platform PowerShell https://aka.ms/pscore6

PS C:\WINDOWS\system32> Add-VpnConnection -Name AUST-VPN -ServerAddress 103.23.42.72 -TunnelType Pptp -RememberCredential -Force
```

- Now you will find a VPN connection on your network setting. Click the system tray icon located at the bottom right corner of your computer and select network option.

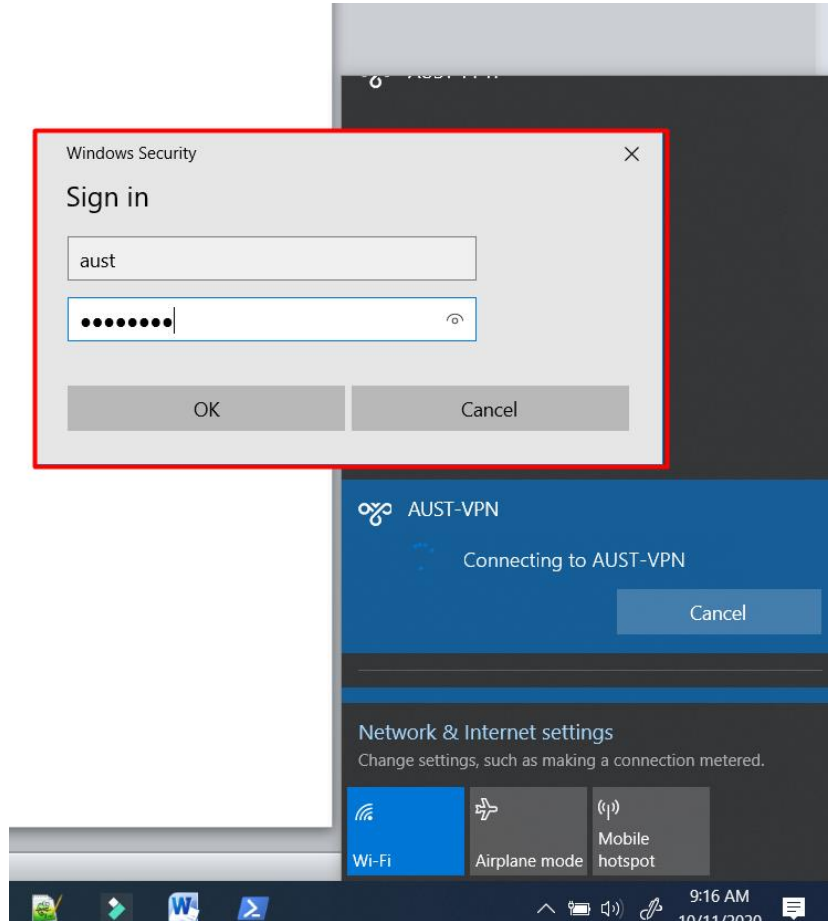

- Select the VPN Connection AUST-VPN to connect.

- A popup window will appear asking for credentials. Provide username, password and click ok.

To get this VPN credentials, AUST faculty/student must send an email from his/her institutional email (@aust.edu) to vpnservice@aust.edu

- You should be connected now to AUST network.
